SCHOOL LAW IS UPHELD UPON APPEAL

Ballard County Bank Case Is Reversed By Appellate Court

Grand Jury Fails to Indict Men Who Shot Ed Callahan

Frankfort, Ky., June 1. (Special.)—The appellate court in affirming Prowse vs. the board of education of Christian county, upholds the new school law passed by the last legislature.

Ballard Bank Case Reversed.

Frankfort, Ky., June 18. (Special.)—The appellate court today reversed the decision of the Ballard county circuit court in the case of the Maryland Casualty company against the Ballard County Bank of Bandada. In the lower court the bank won the case. The suit was filed in the Ballard county circuit court against the casualty company for loss sustained by the loss on the bank robbery, when the cashier was forced to open the bank vault at the point of pistols. The casualty company said it was liable only when the vault was entered by violence or the use of explosives. John K. Hendrick argued the case before the court of appeals for the casualty company.

No Indictment Returned.

Jackson, Ky., June 18. (Special.)—The grand jury adjourned without returning indictment against anybody in the Callahan shooting. It says there is circumstantial evidence against Levi Johnson and Eliza Smith, but not enough to indict. The judge suggests an investigation next term. He holds John R. Smith under bond.

Lexington, Ky., June 18.—Although the bullet which was intended to end his earthly existence passed completely through him, entering his left side and coming out through his hip at right angle of forty-five degrees, Ed Callahan, the noted feud leader of Breathitt county, will survive his wound and live to mete out vengeance to his enemies. For the first time since he became the victim of an assassin's bullet almost two weeks ago, Callahan was interviewed, and while he made no outward threats against those he believed responsible for his injuries, his statement was characteristic of the man. He said that his enemies, in the effort to assassinate him, had been the first to violate the peace compact recently entered into by the leaders of the factions and that in the future they would have to take care of themselves. Henchmen of the feudal chieftain have rallied to his support and since the shooting he has been surrounded daily by from fifty to one hundred armed men ready to do his bidding.

DUEL TO DEATH

Louisville, June 18.—(Special.)—As a result of an old grudge, Frank Stiggers, railroad detective, and William Charles, a former employee of K. & I. Bridge Co., fought a duel in a saloon. Both were killed.

POLICE RAID ON CRAP GAME LAST EVENING

Patrolman Carter pulled off a raid single handed yesterday that netted him one prisoner and effectually broke up a crap game in the vacant room over Sleeth's drug store. Entrance was gained by an outside stairway.

The police received a tip that a game was running up there, without the consent of anybody, and Patrolman Carter was instructed to take Patrolman Gourieux and close in on the place. After failing to find his partner, Patrolman Carter essayed the task alone, but he was seen going down the long hall, and there was a scuffling of feet, a vanishing of forms, and then silence.

Some of the gamblers jumped from the second story windows, others made off for the other exit and all escaped, more or less demoralized, and some of them bruised.

Patrolman Carter captured the biggest man in the crowd and took him to the station. He was afraid to delay the raid any longer lest the tip get out.

Miss Jane Stephenson has gone to visit Miss Lucy White Booker at her home on Harrod's Creek for a stay of several weeks.

Vera Cruz, June 18.—A number of arrests were made, including members and ex-members of the police force, in connection with an alleged plot to burn the city and liberate prisoners to pillage homes. The Mexican government is investigating a report that part of the plot was of a revolutionary nature.

THREE PADUCAH DRUGGISTS ARE GIVEN OFFICES

Three Paducah druggists attended the meeting of the state pharmaceutical convention at Cerulean Springs this week, and returned laden with honors. E. J. Pettit was elected delegate to the National Retail Druggists' association at Louisville September 6; Jesse Gilbert was selected to the committee on adulterations, and S. H. Winstead was elected first vice-president.

E. T. Penny, of Stanford, was elected president. B. F. Hunt of Mayfield, was elected second vice-president.

One of the principal subjects of discussion was the prohibition of the sale of opium and its alkaloids, excepting on prescription of a physician and prohibiting the refilling of prescriptions. The convention adopted a resolution endorsing such a law, and the legislature will be asked to enact it. This is aimed at the drug habit.

AUTO RACES BEGIN AT CROWN POINT WITH BIG CROWDS

Crown Point, Ind., June 18.—Matson, with the Chalmers-Detroit, wins the race. The elapsed time was 4:31:21. Monson, with the Marion, was second.

Brown Point, Ind., June 18.—Sixteen autos started at 9 a. m., in the race for the Indiana trophy, "the Western Vanderbilt." The distance is 232 miles, 23 miles to lap. The country's best known drivers are in the contest. It is the first event in what is designed to be an annual affair. Immense crowds are present and Chicago society is conspicuous. A thousand Illinois militiamen are patrolling the course. Serious accidents are not expected. Because the dangerous turns are so perilous none will attempt them at high speed. A woman and three men were badly hurt this morning, going from Chicago to the races, in a wreck of their automobile.

Those hurt were Adolph Magnus, Miss Florence Packard and Miss Harriet Barnes, all of Chicago. The first two were serious. Magnus is a grandson of Bush, the St. Louis brewer. Two other spectators were slightly hurt.

Matson, driving the Chalmers-Detroit, is leading at the finish lap of the first half of the race. His speed average is 56 miles an hour. Monson, in a Marion, is second; Robertson, in a locomobile, is third. All are close up. Matsonville, in the Corbin, and Ruehl, in a Fal car, are not seen since the first lap, but no accidents are reported.

Strang, in Buick No. 14, quit on the second lap with his axle split. He and mechanic are unhurt.

Burman, of the Buick, was disqualified. On the sixth lap he broke down and borrowed a valve from another driver.

Muskogee, Okla., June 18.—In a pitched battle today between three train robbers and a band of constables, at Braggs, Okla., Constable Johnson Kirk was killed and Paul Williams, a bandit, was fatally shot. The posse, with bloodhounds, is trailing the two escaped robbers. They piled ties on the track and tried to rob a freight crew, just paid off.

Prominent Young Attorney Is Buried at Murray--News Gathered From Over Ken- tucky.

LaCenter, Ky., June 18. (Special.)—After sinking slowly for many months, McDougal Ferguson, 51 years old, state railroad commissioner for this district, died suddenly yesterday afternoon at 5 o'clock. His death was due to diabetes, although his condition was made worse by an attack of malarial fever. His condition was not regarded as critical until yesterday afternoon. Many of his friends did not know of his illness.

The end came peacefully, and Mr. Ferguson was conscious to the last hour. His children and brother, Dr. R. V. Ferguson, of Pembroke, were at his bedside. The announcement of his death was a surprise to his many friends as his public life had given an acquaintance over the state.

Mr. Ferguson was born May 16, 1858, in Montgomery county, Tenn. With his parents he removed to Ballard county many years ago and resided on a large farm. He was reared on the farm, and attended the common schools. For one term he taught school, and in 1897 he began the study of law in Louisville. However, he never devoted much attention to the law, and during the greater part of his life lived on a farm in Ballard county near LaCenter.

For some time was in the insurance business. In 1891 he was elected to the legislature as a representative from Ballard and Carlisle counties. He took his seat as state senator in 1897. In 1903 he was elected state railroad commissioner from the First district. He was re-elected and at his death was serving his second term. As railroad commissioner Mr. Ferguson represented 37 counties as the state is divided into three districts, and his re-election testified to his popularity.

Socially Mr. Ferguson was well liked, and had a manner of retaining friendship. His father was the Rev. John D. Ferguson, a Christian preacher, and Mr. Ferguson was a member of the First Christian church of Paducah. He resided in Paducah about five years, but moved back to his old home. He was a member of the Ingleside lodge of Odd Fellows, and of the Paducah lodge of Elks.

Mr. Ferguson is survived by five children: Misses Lillian Ferguson, Elizabeth Ferguson, Lula Ferguson, and Garth K. Ferguson and Master McDougal Ferguson, Jr. Two brothers survive, the Rev. R. V. Ferguson of Clarksville, Tenn. Mr. Ferguson was a cousin of Mrs. E. G. Boone, Mrs. H. C. Overbey, of Paducah, and Mrs. A. S. Dabney, of Chicago, and Mrs. Frank L. Scott, of Denver.

The funeral took place this afternoon at 2 o'clock. The burial was in Mt. Pleasant cemetery, two miles from LaCenter.

Burial of Dr. Dismukes.

Mayfield, Ky., June 18. (Special.)—Business was suspended here today during the funeral of the late Dr. J. L. Dismukes, Sr., which took place at the First Baptist church at 10 o'clock. The Rev. W. D. Nowlin preached the funeral sermon.

Dr. Dismukes was buried with military honors at the city cemetery where Gen. H. A. Tyler, of Hickman, took command.

The procession was one of the longest ever witnessed in Mayfield. Practically the whole town participated. The order of march was: Confederate soldiers in uniform, on foot with the flag.

The Sons of the Confederacy, on foot.

The Daughters of the Confederacy in carriages.

The druggists and physicians of the county on horseback.

The pallbearers, Confederate soldiers.

The hearse.

The family in carriages.

The friends of the family, in carriages and vehicles, followed the procession.

Funeral of T. W. Randolph.

Murray, Ky., June 18. (Special.)—The funeral and burial of T. W. Randolph, 27 years old, a prominent young lawyer, was held yesterday afternoon in the Murray cemetery.

Mr. Randolph was ill of typhoid fever although his death is attributed to an attack of heart trouble. He was born in Franklin county, and came to Murray as a school teacher. He studied law and was admitted to the bar, and began the practice of his profession. Besides his wife, Mrs. Mamie Randolph, he leaves a small child.

Mrs. Jesse Farmer, Mrs. Jesse Farmer was buried yesterday afternoon. She died Wednesday.

Four New Precincts For Paducah

Infant Dies.

The infant child of the Rev. and Mrs. P. H. Harris died yesterday.

COUNTY SCHOOLS GRADUATE BANNER CLASS THIS YEAR

Of the 2,400 county school diplomas issued by the state department of education, 45 will be received by the graduates of McCracken county. This year was the largest class in the history of the county schools. The diploma will entitle the holder to free tuition in the county high schools over the state. Prof. S. J. Billington, county school superintendent, said he thought a majority of the graduates will attend the county high school, which it is hoped to open in the fall.

Superintendent Billington says he expects an attendance of fully 75 next session. The free tuition applies to any graduate of the county school in any year. A person over 20 years of age is prohibited from attending the public schools, but the school board has decided to waive this rule, and make it more general, by announcing any graduate of the county schools may attend the county high school free.

The annual examination for scholarships to the State University will be held by Superintendent Billington Saturday. The examination will be on the subjects taught in the common school subjects.

Any person between the ages of 14 and 24 years is eligible to take the examination.

GOULD AS CUPID AT MASKED BALL CREATES LAUGH

New York, June 18.—More of the Gould servants today testified to seeing Mrs. Gould intoxicated. Harlan Beltsch, Mr. Gould's valet for ten months, specified several occasions when he saw her drunk. He said she became enraged at a St. Regis hotel waiter when dinner was delayed and broke a number of dishes.

Beltsch testified that on the occasion when Mrs. Gould had been drinking heavily of champagne cocktails she asked him to untie her shoes. Kicking them off she staggered off to her carriage. Another time she told him to tell Malloy "to mind his own business," when he inquired about some lines for the yacht. Cross-examined he denied he was discharged for theft and said he resigned.

New York, June 18.—Henry H. Knowles, a New York insurance man, cruised with the Goulds. He noticed the effect of drink on Mrs. Gould. It changed her from a charming to a nagging woman. Spectators laughed, joined by the court, when Knowles described a masked ball at Paris, where he dressed as Triby and Gould as Cupid.

WILL FACILITATE VOTE AND COUNT WHERE TOO HEAVY

Board Working on Details of Boundaries Now--Cecil in County May be Divided.

To eliminate the crowded condition of the voting precincts in the city, additional precincts will be established. The dividing and rearranging of the precincts is being done by Will Farley, of the Republican party, and Police Judge D. A. Cross, of the Democratic party, representing the board of election commissioners. The formal report will be presented in county court next Monday, but practically all of the changes have been arranged. The precincts are being added because some of the precincts have such heavy registrations that the election officers have to spend hours in the tedious work of counting the votes and it delays the voters.

The four new precincts will be made from Butler's, Kirkpatrick's, Savage's and Gailman's, while the boundaries of other precincts will be shifted by the commissioners. Gailman's is the largest precinct in the city and has a registration of over 600 voters. The precinct has embraced all the territory north of Clay street from the river to the city limits but under the revision Trimble street will be the dividing line. From Eighth street to the river probably will be shifted to Berry's and then the precinct will be divided by a line running up Seventeenth street. By the change Berry, Henneberger and the Plow factory precincts will embrace part of the territory of the Gailman precinct.

In Mechanicsburg, Butler's precinct has embraced all the voters residing south of Island creek. The precinct will be divided by a line running north and south up Powell street from Island creek to the city limits. Kirkpatrick's precinct will be relieved of the congestion by a division of the voters. At present the north and south boundaries are Kentucky avenue and Tennessee street. Adams street will be made the dividing line and the precinct split into two voting places. The precinct has a registration of about 500.

Fountain avenue will be the dividing line for Savage's precinct and without any other changes of boundary the congestion can be relieved. More voters will be included in Diegel's precinct by extending the west boundary to Sixth street instead of Fifth street.

The additional four precincts will call for additional names. As usual the precincts will be named for some prominent person or business house in the precinct. In courts the precincts are known by the numbers only. At present there are 18 voting precincts in the city, and with the increase there will be 22.

In the County.

Not much trouble has been experienced in the county, and the reports are in early usually. However, the members of the election board expect to divide the precinct at Cecil, owing to the increase in the registration. This will be taken up after the rearrangement of the precincts in the city has been completed.

Brookport, Ill., June 18. (Special.)—The Brookport Eagle announces definitely that an interurban line from Golconda to Joppa, touching Metropolis, Brookport, Unionville and New Liberty, will be constructed. G. W. Tucker is one of the promoters, and the people of Pope and Massac counties are jubilant. The power plant will be erected at Brookport, according to the Eagle's advice. The line would connect with the C. & I.

Wrights Get Medals.

Dayton, June 18.—The government, state and city medals were presented to Orville and Wilbur Wright with eloquent speeches before a thousand neighbors and visitors at the fair grounds today. The medal authorized by congress was presented by General James Allen, chief of the signal corps, United States army. Governor Harmon presented the state medals and the city medals were presented by Mayor Burkhardt.

ST. LOUIS SENSATIONS.

St. Louis, June 18.—Coroner Bracy, of St. Louis county, declares the coroner's jury made a mistake in the murder and suicide verdict in the case of William Mewes and wife, found dead at their home last night. It is a popular belief that Mewes kept nearly \$15,000 in his house. Bracy declares robbers murdered the couple and left \$1,200 behind to cover the larger theft. The investigation is renewed.

St. Louis, June 18.—Robert

Leslie, 27 years old, was arrested when he called for a "dummy" letter, following a demand on the Wabash railroad for \$5,000 and a threat to blow up its tracks between Edwardsville Junction and East St. Louis. He is held by federal authorities for misuse of the mails. The tracks were patrolled and trains reduced their speed last night for fear of attempt at wrecking.

FREEMAN IS READY TO MEET HIS FATE BUT YET HOPEFUL

George Freeman, the colored murderer under sentence to be hanged next Friday, was baptized this morning by the Rev. Father Henry A. Connolly, and he became a member of the Roman Catholic church. After the baptism Freeman appeared happy, and said as far as his religious views were concerned he was ready to die. Henry Roberts, colored, of Rowlandtown, is his godfather. Freeman has not given up hope, and he himself has written Governor Willson, asking that his life be spared. This is the last week of Freeman's life unless the sentence is commuted by the governor.

The work on the scaffold has about been completed. The stage is 10 feet from the ground, while the beam from which the rope will be suspended is 18 feet from the ground. The trap door is 30 inches square. The scaffold is erected out of thick lumber. The scaffold can not be seen from Freeman's cell, although he can hear the carpenters at work. Other prisoners, who are confined in the main corridor, can see the scaffold, and Jonas Smith, who gained a new trial for murder, is an interested spectator from behind the bars.

Freeman is 29 years old, and was born in Fulton. He has lived around Paducah, although he worked some of the time in the cotton fields in the south. Previous to coming to Paducah he worked at Metropolis. He weighs about 160 pounds, and is tall, and a well built man physically. He has a fair education and can write a fair hand.

Sheriff Ogilvie today signed the tickets for the admission to the hanging. Each ticket is numbered, and is signed by the sheriff. Every day requests are made for the precious tickets, but already every ticket has been promised. Some men have offered the sheriff as high as \$10 for a single ticket.

Today Sheriff Ogilvie received a request from a Paducah woman, asking for a ticket to the hanging. He said probably that he would grant the request, which will make two women that will see the hanging.

OHIO IS NEW BOAT BEING BUILT IN GOLCONDA TRADE

"Ohio" is the name of the new packet boat built to take the place of the steamer Royal in the Golconda-Paducah trade. The Ohio is at Marietta, O., and will be completed in about four weeks. She is on the same order of the George Cowling but not quite as large and will be one of the prettiest and fastest boats running out of this port. The new boat will be put in the Golconda-Paducah trade about the middle of July. The boilers for the Ohio are being made by the Fowler-Wolfe Sheet Metal Works and will be shipped the first of next week to Marietta. The Royal will enter the Kentucky river trade.

The Friday night rehearsal of the Grace church choir will be omitted this week on account of the Chautauqua.

FREE PAPER AMENDMENT IS REJECTED

President Favors Relieving Small Corporations From Income Tax

Straight Whisky Men Protest Against Recent Pure Food Ruling

Washington, June 18.—The senate defeated the amendment of Brown, Republican, of Nebraska, to put print paper on the free list by 52 to 28. The following Republicans voted aye: Beveridge, Bristow, Brown and Burdett.

Looking for Joker.

Washington, June 18.—Some senators are on a still hunt for the "jokers" in the proposed corporation tax amendment to the tariff bill. They call attention to the complacency with which the "interests" greeted the plan. Cummins, of Iowa, whose income tax amendment probably will be sidetracked for the Aldrich provision, tells in an interview numerous ways the corporations might evade it. They could convert the corporations into partnerships and turn the stocks into bonded indebtedness or raise the prices of corporations products. One principal argument in favor of the amendment is that it provides a partial federal supervision of corporations cherished by the Roosevelt policy.

Exemption of Corporations.

Washington, June 18. (Special.)—President Taft is willing to exempt from the tax on corporations all corporations whose income is not over \$20,000 a year.

T. P. A. on Tobacco Tax.

Washington, June 18.—A petition was received from the Travelers' Protective Association of America, protesting against the removal of the six cent tax from leaf tobacco.

Whisky Men Protest.

Washington, June 18. (Special.)—Straight whisky men filed today exceptions with the president to the Bowers decision, regarding the labeling of whisky.

ATKINS CASE

A decision in the case of the Globe Bank and Trust company against the estate of T. J. Atkins and Arthur Y. Martin, trustee for the bankrupt, is expected Saturday from Hon. J. C. Speight, of Mayfield, who was appointed special judge in the case. By the decision Judge Speight will decide whether the deed of about \$30,000 worth of property by T. J. Atkins to his son, Ed L. Atkins, and grandchildren is valid. The banking company is seeking to set the deed aside, as the deed was made as a gift. Some of the property is in the business district.

ENGLAND IS STIRRED BY RUSSIAN INCIDENT

London, June 18.—The foreign office asked Captain Robertson to report details of the British steamship Woodburn, being fired on by the Russian torpedo boat near the Bay of Pictipias, where the kaiser and czar are meeting. The Russian embassy is perturbed and assured the foreign office informally that the affair was a regrettable mistake. English action depends upon Robertson's report. Englishmen generally believe it was a mistake. Nevertheless it increased the opposition to the czar's proposed visit to King Edward, which may be abandoned.

Government's Statement.

St. Petersburg, June 18.—The government issued a statement, regarding the firing on the British steamship. It says the Woodburn violated the prescribed regulations and ignored a signal to heave to, whereupon the guardship fired three blanks and then four shells.

Mrs. David Van Cull has returned from Louisville after a visit to relatives.

Boston, June 18.—The list of maimed and injured in the Bunker Hill celebration rivalled that of the actual battle 124 years ago. Sixty-five persons were treated at the hospital for injuries caused by fireworks and pistols, and many more were attended by physicians and others at their homes.

TWENTY-ONE DAYS OF RACING HERE

FAIR ASSOCIATION CONTRACTS WITH MARK MOORE.

Will Be Given Soon After Close of Meet in Oklahoma City.

OVER THREE HUNDRED HORSES

Twenty-one days of racing will be given at the fair grounds about July 17. The contract for the races was signed yesterday afternoon by Mark Moore, a bookmaker of St. Louis, and the Paducah Fair association. The meet will be held under the auspices of the fair association, but Moore will manage it. The meet will be a continuation of the July races, which had been planned by the Paducah horsemen. The racing will be held July 5, 6 and 7, and there will be an interval of several days before the horses for the long meet will arrive, as at present Moore is racing at Oklahoma City.

The meet in Oklahoma City probably will close July 6 and it will take several days for all the horses to reach the city. The opening date will be arranged next week, and the advertising literature will be scattered through western Kentucky. Large crowds from all of the adjoining counties, as well as from the cities is expected.

Barney Schriber, of St. Louis; Harry Bachelor, of Texas; Sam Lewis and Freeman & Duttin, all owners of large strings of horses, will be represented at the meeting. The races will be mixed and some of the best horses in the country in all classes will be entered. Some of the races will be named after officials and prominent business men.

Owing to the number of horses additional stalls will be erected at the race track. About 150 new stalls will be necessary. Before leaving Mr. Moore made arrangement with a wagon yard near the race track to be used for some of the horses. Mr. Moore returned to Oklahoma City last night at 5:15 o'clock.

BIG GROCERY CONCERN FAILS.

Mammen Company of Evansville, Ind., Makes an Assignment. Evansville, Ind., June 18.—The Mammen Grocery and Bakery company, of this city, made an assignment for its creditors. The company was organized in 1907 and was capitalized at \$100,000 and the stock was owned by local capitalists, among whom is Byron Parsons, senior member of the wholesale grocery firm of Parsons & Scoville, of this city. The company opened five retail grocery stores in this city, and these concerns are managed by Harry Mammen.

The stores all did a strictly cash business, but the company, starting up during the panic, has never been a financial success. It is claimed that the assets will exceed the liabilities, and it is almost certain that the creditors will be paid in full. The trustees, headed by Byron Parsons, will sell the stock and divide the proceeds among the creditors. No court record has been made of the assignment and none will be, the creditors agreeing among themselves to sell out the five grocery stocks.

Avoid the crowd and delay at the end of the month by payment of city tax bills now.

INDIANS OUTGROW THE CANOE.

Power Boats Replace Historic Craft in Lake Michigan Funeral Procession. Traverse City, Mich., June 18.—An Indian funeral on Lake Michigan in which power launches were substituted for canoes marked a striking departure from the customs of Michigan's legendary literature.

Down to the present time the Indians of this region have clung tenaciously to the canoe of the "Hia-watha" period. But at the funeral of Joseph Cornstalk the traditional canoe was conspicuous by its absence. Fully 100 Indians escorted the body to the cemetery on Garden Island, but all the company traveled in modern power launches.

GREAT THINGS CAN BE ACCOMPLISHED IN A SINGLE DAY

It Required Century of Time
to Build the Pyramids
But.

Candidates Can Win a Bonus
in Eight Hours Time.

IT IS EASY WHEN CONSIDERED

How long did it take to build the pyramids?

Many long years were required to build these great piles of stone in the erude age of the Pharaohs, but the pyramids are there today to speak silently of buried centuries and the world considers the labor put into them worth while.

But in these days things are done in more of a hurry. A day's work means more than to carry a certain number of stones to go into an historical pile for the ages to come. Minutes are considered of more value than they ever were before—and great deeds are done in a single day.

What can be done in one day is the point all this leads up to—and the answer is for the benefit of the candidates in The Sun and Associated Newspapers' Great Voting Contest.

Much can be accomplished between sun-up and sun-down. A person determined to make every minute count can do as much in this time as the idling, unsystematic worker can do in ten days. Don't you believe it? If you are observant you know it.

What is here said is addressed especially to those candidates who have so far failed to profit by the bonus vote offer which expires tomorrow night. Four bonuses may be won in a day. It doesn't even look hard when considered rightly. A dozen subscriptions and the extra votes are yours. Half that number and you will be entitled to one bonus.

One full day remains in which to take advantage of the second extra vote offer and that is time enough if you haven't a cent at this time. If you have a part of the money necessary it will be easy to secure the balance—and after you have secured the full amount you may then have time to get another before the day is up.

Work hard now when your work counts most. You may be able to take it easier a little later, but don't neglect the opportunity to get a bunch of extra votes that may almost double your total score.

It is easy to win a bonus in a day. It is a little more difficult, but still possible, to win two or three of them in the same time.

Would you be among the winners? Would you share in the distribution of the \$10,000 prize list? Have you picked out a prize you would like to have? Better not lose any time now. Great things can be done in a single day—and work counts most NOW.

RALPH PARLETTE GREAT HUMORIST

WILL TICKLE FANCY OF AUDIENCE TONIGHT.

Optic Read Had Banner Crowd of Chautauqua Thursday Night.

SIX HUNDRED TICKETS SOLD.

It was intended that Thursday should be a great day at Chautauqua and it was. The weather man did his part, the talent did their parts and the people did their part pretty well. The attendance was the best since the afternoon crowd of the first day and as the management predicted there are a great many people regretting now that they did not hear the principal attraction of the day.

The assembly's reader, Miss Claxton, and the Chicago Ladies' Orchestra made up the afternoon's entertainment and were enjoyed, and although the latter were not under contract for the evening, they very kindly assisted Miss Claxton in the first part of the evening's entertainment. As previously announced and advertised the only Optic Read followed these attractive and interesting young ladies in a way peculiarly his own. The Chautauqua association had promised something out of the ordinary in the speaker, and if anybody was disappointed he was not heard to express himself. Mr. Read announced that he denominated what he had to say as "First One Thing and Then Another," and it truly was. He went from the supremely ridiculous to the sublime almost in the same breath. He gave his celebrated automobile story and closed with that classic short story, regarding a Kentucky feud, which has been given much praise by very critical critics.

The program for today will be made up in the afternoon by the same talent as on Thursday. Today will be the last appearance of the popular Ladies' Orchestra. The address of the evening will be by Ralph Parlette, the celebrated newspaper humorist, and friend of the college boys. Those who have heard Mr. Parlette say that he would amuse if he did not open his mouth, but like John Alden, he is quite capable of speaking for himself.

Mr. Parlette's subject will be "Paradises."

At the evening session Thursday an opportunity was given those present to subscribe for season tickets for next year. While about 600 were taken several hundred more will have to be subscribed to justify the management in going ahead to make the program of next year more extended than that of this. It is believed that with the appreciation that has been expressed for the entertainment of this assembly that there will be enough people interested to make up the deficiency and that next year a greater number of good speakers may be engaged.

Dr. G. T. Sullivan spoke last night in behalf of next year's chautauqua.

BLACK HAND

ARRESTS LAST NIGHT TOTAL EVEN DOZEN.

Cincinnati Officers Round Up Members of Italian Murder Society.

Cincinnati, O., June 18.—In a raid made by the post office inspectors and city detectives a patrol wagon full of Italians was rounded up last night and taken before Federal Commissioner Loveland.

The party arrested comprised an even dozen men and two of that number, Vicens Arigo, a fruit dealer, and Frank Spadero, a saloonkeeper, were held over on warrants charging them with conspiracy to extort money from John Amicon, of Columbus, Ohio, by black hand methods.

The remaining ten were allowed to go, though it is said some of them are to be kept under surveillance and will be called as witnesses.

In the raid a large amount of literature was captured which the inspectors declare has an important bearing on the cases of the black hand suspects recently arrested at Marion, Columbus and other Ohio points.

City taxes due June 1, 1909, now ready for collection.

Madrid, June 18.—Despite the expectations of the queen's physician, her condition is unchanged. Her majesty slept soundly last night and this morning walked in the gardens. Everything is normal. The physicians expect the birth tonight. The queen mother, the infantas and the ministers, who hastened to La Granja, are remaining in Madrid. The people are watching for the hoisting of the red or white lantern at the ministry of the interior which will indicate the sex of the new-born baby.

BIRDS BEAR LOVE; MAH SLOW

Suitor Sends Tender Messages to New York Girl by Pigeons.

Winsted, Conn., June 18.—David Cohen, who recently came here from New York to manage a clothing business, will send love letters to his fiancée in New York by carrier pigeon instead of by mail. He has received a dozen pigeons for that purpose, one of which took a prize at a recent show in Madison Square Garden. Mr. Cohen refused to divulge his sweet-heart's name or street address. By rail to New York it is 118 miles and it takes four hours for the fastest trains to carry a letter there. By

air line the distance is considerably shorter and Mr. Cohen has figured that he can beat Uncle Sam's delivery system by more than an hour.

Daily Thought.

"To make a mistake is human, but to be foolish is to make the same mistake twice."

Judging from the first greeting between the czar and kaiser, we suspect the two monarchs went out on Pitikay bay to spoon.

PADUCAH'S DRAINAGE PROBLEM

It is a pleasure to observe the interest both the city and county administrations are taking in the subject of drainage. Health, comfort and wealth are involved in Paducah's problem, which is complicated by the fact that the level streets prevent surface drainage, and the ramifications of creeks and bayous, which fill with back water when the river is high, break the city into sections, which interfere with uniform development, and render impossible that compactness, which is always advantageous in a city. The drainage of the northwest section into Perkins' creek is an important step, and we trust there will be a full attendance of the committees at the conference at the county judge's office tonight.

The elimination of Bradshaw creek as a factor in civic life, is not a single problem, but is related to the filling of all those hollows running back from the confluence of Island creek and the Tennessee. It is an engineering problem, requiring deep study, much skill, and, perhaps, considerable money. The opening of Fountain avenue south to Guthrie avenue will add a section of the city too long neglected and will emphasize the necessity of redeeming hundreds of acres of valuable land almost in the heart of the city. It looks easy to put a pipe under ground in the bed of Bradshaw creek and fill over it with dirt. But these creeks have an outlet and when the rivers fill and the current slack, the water will back into the creeks, and the pipes, if they are laid. The whole scheme of draining and filling the hollows probably will have to be considered as one.

TYRANNY IS TYRANNY.

Two classes of people in this country dislike Roosevelt: The trust barons, who desire no legal restraints on individualism; and those ultra socialists, who wish to revolutionize the existing order of things. Mr. Roosevelt stands squarely between the two, shouting that the tyranny of a mob in the name of "liberty" is just as bad and no worse than industrial tyranny in the name of "order." He is a student of history and of present day problems, and with it all a patriot. He is no longer president; there are no higher honors for him to aspire to, and his words may be accepted as coming from one, who has no personal end to gain and no motives to be suspected.

As Bryan suggests, it is a hideous doctrine to preach, that nations must inevitably rise and fall, as youth grows to manhood and sinks into decay. But whether or not this is true, depends upon each succeeding generation, and we are at a crisis. It would be suicide to overthrow the present system before the people

have developed a capacity for maintaining a Utopian condition; and let us warn the Socialists right here, that we will approximate just as closely the ideal Democracy, as we deserve and have the capacity to sustain; and neither summary legislation nor the superficial Hindoo philosophy of the new thought folks will bring mathematically exact justice any nearer. The Socialist should turn his attention to preparing his soil before he plants his crop. When the brotherhood of man is established in American hearts it will be enacted in American legislation and executed in the governmental system, and not before.

On the other hand, Mr. Roosevelt is right. We cannot depend alone on competition and individualism to protect personal and common rights; for out of the system of competition have grown up the monopolies and co-operative trusts, with no hindrance to all the evil possibilities of their tendencies. It is not sufficient that they are temporarily made to behave by popular agitation. Laws—wise laws—to hold them in check and relieve them of their evil tendencies must be adopted. Then the course of natural development will carry us whither our virtues direct.

AUDIENCES.

It is as interesting to watch the audience of a humorist, as to listen to his witticisms. Roughly his audience may be divided into three classes. Some go prepared to laugh, because the humorist is advertised as funny, and meet him half way. They must be the delight of his soul. Then, there are those, who take the matter seriously, and since the humorist is advertised as such, naturally become so engrossed in studying and classifying his style, that they forget to laugh. The third unhappy section is composed of those whose mental attitude seems to say: "You are a humorist, now see if you can make me laugh."

Happy are the members of the first division, who go to laugh and do laugh. It makes them forget themselves, it makes them change the air in their lungs, exercise their diaphragms and turn their livers upside down. The second class finds enjoyment in studying how the humorist extracts the laughs from the first division. Nothing but a shock will surprise a laugh out of the rebellious-minded third division. They will be more likely to laugh at a sudden quip in the course of a serious discussion, or the unconscious paroxysms of the merry majority. Saxe was right: "It's a serious thing to be a funny man."

SOME STORIES AROUND TOWN

Mr. Henry Brame, who is assisting Constable A. C. Shelton in erecting the scaffold in the jail yard, has been the victim of a good joke. At all times Constable Shelton carries a young cannon in his holster, and yesterday he pulled off his coat and the pistol was in plain view. The constable forgot the weapon and went around the yard with it in the holster, while several curiosity seekers were admitted to see the scaffold. At the best they were struck with awe at the death machine, and soon one spied the big gun of the constable protruding from the holster. Also they noticed that Mr. Brame was working on the scaffold, but observed the fact that he was not armed. "Well," sighed one of the men, "it must be hard enough to be hanged on that thing but just think of having to help erect the scaffold on which you will be hanged."

STATE PRESS.

Louisville Post.

In the current number of Collier's Weekly an honor roll is printed containing the names of those Democratic senators who, at every division, have voted in accordance with the platform pledges of their party relative to tariff revision and in conformity with the obvious wishes of a large majority of their constituents. In this list is the name of Mr. Thomas H. Paynter, senior senator from Kentucky.

Senator Paynter never plays to the galleries, but all through this important session he has spoken and voted upon the tariff issue as a Democratic senator, who is a Democrat in principle as well as in name.

The senate elects its own committees, and with the Aldrich Republicans in control, most of the choice committee assignments are at the disposal of Democratic senators willing to repudiate their party's platform. Senator Paynter has won no distinction by that sort of trading, but he is winning his position in the senate by the display of other qualities more worthy of commendation.

Courier-Journal.

With the return of business prosperity and the improvement in industrial conditions, a large number of electric railway lines are being projected in the south. Kentucky, which already has made a fair beginning in trolley development, should see the construction of many such lines in the near future. Louisville is now surrounded with a network of electric railways, to which material extensions and additions undoubtedly will be made. Lexington has made a good start toward connecting herself with her sister cities of the Bluegrass region. Covington and Newport have profited in this respect by their proximity to Cincinnati. Ashland is connected with Catlettsburg and some of the enterprising West Virginia towns across the river. Paducah, Owensboro, Frankfort, Henderson and other cities have ambitious projects on hand that will be carried out in the fullness of time. At some day in the future the map of Kentucky, if only half the dreams of promoters come true, will resemble a collection of cobwebs with its representations of these lines radiating out from the centers of population and commerce.

Kentucky State Journal.

We have not learned whether the Federation of Women's clubs sent the fiscal court of McCracken county a copy of their resolution commending the work of Mrs. Crane in Kentucky or not. If they have not done so we trust the oversight may be remedied yet.

Carlisle County News.

What about the Carlisle county high school? Other counties about us are preparing to put the scheme into practice at once. Ballard county has taken a wrong step to begin the system with, but that should only act as a lesson for Carlisle county.

WOMAN, LOVELY WOMAN

But Alas, Without Beautiful Hair No Woman Can Be Handsome.

A great many newspapers and magazines are printing pages on how a woman can be beautiful and keep beautiful.

And everyone, as you can see for yourself, admits that no woman can be really beautiful unless she has lustrous and luxuriant hair.

The women of Paris are, as a rule, beautiful and keep beautiful, and a careful American observer who has traveled much claims that their beauty is due to their knowledge of how to keep their hair luxuriant, which they do by using a superior hair tonic.

Many American women are as wise as their French sisters, and that is why Parisian Sage, the quick acting and greatest of all hair restorers and tonics, is now having such a tremendous sale in America.

We ask every woman reader of this paper to give this marvelous hair beautifier a thorough trial, and we gladly make them this liberal offer: Get a large 50 cent bottle from Gilbert's drug store today, the largest for the money in America. Use it as directed for two weeks. If at the end of that time you are not satisfied with results, say so to W. J. Gilbert and he will give you your money back.

Besides being a delightful and invigorating hair dressing, free from grease and stickiness, Parisian Sage will surely cure dandruff, stop falling hair and itching of the scalp, or money back.

The girl with the Auburn hair is on every package, and leading druggists in every town sell Parisian Sage.

GOOD DIVIDEND BY L. & N.

Rumored That Common Stock Will Be Raised to \$100,000,000.

Louisville, June 18.—A rumor current in commercial circles has it that the Louisville & Nashville will shortly increase its common stock from \$60,000,000 to \$100,000,000. The report could not be verified. This report follows the declaration of the 3 per cent semi-annual dividend.

The stock of the Louisville & Nashville railroad was placed on a 6 per cent basis by the directors at their meeting in New York. The directors declared a semi-annual dividend of 3 per cent on the stock.

The two preceding semi-annual dividends had been at the rate of 2½ per cent or 5 per cent for the year.

The Louisville & Nashville's common stock is \$60,000,000. The dividend is payable August 10. The stock was put on a 6 per cent basis in February, 1905, being raised from 5 per cent and was kept there until August last year, when it was put to 5 per cent.

WOULD FINISH TARIFF FIRST

ALDRICH WILL MOVE DELAY OF INCOME TAX.

Democrats in Caucus Again Declare That They Will Stand by Intention of Bailey.

AMENDMENT TO BE ENACTED

Washington, June 18.—When the income tax question comes up in the senate tomorrow Aldrich will again move that action be deferred until after the schedules in the tariff bill shall have been completed.

This motion will carry with it President Taft's program for the enactment of a law taxing the net earnings of corporations and the adoption of a resolution submitting the question of amending the constitution so as to permit the levy and collection of tax on incomes without regard to apportionment among states.

Aldrich will make the statement that he believes consideration of the schedules may be finished by Monday and will suggest the postponement of the income tax and corporation tax measures until that time. At a caucus of Democratic senators today it was decided that the minority shall stand by their previous declaration in favor of the enactment of an income tax law at the present session. There were speeches by Bailey, Shively, Culberson, Money, Rayner, and brief remarks by many others, in which the opinion was expressed that the administration movement in favor of placing the tax on the earnings of corporations is designed to prevent the income tax amendment from reaching a direct vote.

All the measures did not denounce the plan of the president for taxing corporations. Many Democrats believe in that plan, but they are opposed to side tracking the income tax issue.

Previously to the caucus there was a discussion of the president's program in the Democratic cloak room. It was suggested that Bailey might withdraw his amendment after Aldrich presents the amendment for a tax on the earnings of corporations. The purpose of that move would be to avoid the president's plan being offered as a substitute for the income tax amendment. The Bailey amendment then could be offered after the corporation tax amendment was before the senate, and only a motion to table or refer to the committee could displace it.

This, a direct vote on the amendment, it was argued, could not be prevented. Attorney General Wickersham presented to Aldrich last night a draft of the amendment which Taft desires to have adopted, placing a tax on the net earnings of corporations. This draft was submitted to the Republican members of the finance committee today but no action was taken regarding it. It was not made public and the members of the committee declined to discuss its provisions.

A VEGETARIAN DIET

Apart from any other question, is it any wonder that so many people exclude meat from Faust Brand Spaghetti, considering how well it nourishes without producing that uncomfortable "after-dinner" feeling, without over-heating the body, and at a cost that seems a mere nothing when compared with the price of meat.

Any day—every day—once a day or twice a day—for grown folks and growing folks—indoor people and outdoor people—strong digestions and weak digestions—brain workers and body workers—there's no other one food that begins to be like Faust Brand Spaghetti. And how indescribably good it is! This time as steaming brown baked spaghetti, next time with eggs, today as a side dish, tomorrow as the principal dish—always right—always appetizing—getting the family to the table on time and causing them to linger behind hoping for more.

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of **Mother's Friend** before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** makes the danger of child-birth less, and carries her safely through this critical period. MOTHER'S FRIEND

Thralldom of Names--Roosevelt.

In the Outlook this week Theodore Roosevelt writes an editorial, entitled the "Thralldom of Names," on the misuse of the words "liberty" and "order" by those who would tyrannize over the people. He warns against the despotism of individualism, and the oligarchy of the mob.

It behooves our people never to fall under the thralldom of names, and least of all to be misled by designing people who appeal to the reverence for or antipathy toward a given name in order to achieve some alien purpose. Of course such misuse of names is as old as the history of what we understand when we speak of civilized mankind. The rule of a mob may be every whit as tyrannical and oppressive as the rule of a single individual, whether or not called a dictator; and the rule of an oligarchy, whether this oligarchy is a plutocracy of a bureaucracy, or any other small set of powerful men, may in its turn be just as sordid and just as blood-thirsty as that of a mob. But the apologists for the mob or oligarchy or dictator, in justifying the tyranny, use different words. The mob leaders usually state that all that they are doing is necessary in order to advance the cause of "liberty," while the dictator and the oligarchy are usually defended upon the ground that the course they follow is absolutely necessary so as to secure "order." Many excellent people are taken in by the use of the word "liberty" at one time, and the use of the word "order" at the other, and ignore the simple fact that despotism is despotism, tyranny is tyranny, oppression is oppression, whether committed by one individual or by many individuals, by a state or by a private corporation.

Moreover, tyranny exercised on behalf of one set of people is very apt in the long run to damage especially the representatives of that very class by the violence of the reaction which it invites. The course of the second republic in France was such, with its mobs, its bloody civil tumults, its national workshops, its bitter factional divisions, as to invite and indeed insure its overthrow and the establishment of a dictatorship; while it is needless to mention the innumerable

instances in which the name of order has been invoked to sanction tyranny and all public order have disappeared together. The second empire in France led straight up to the Paris commune; and nothing so well shows how far the French people had advanced in fitness for self-government as the fact that the hideous atrocities of the commune, which rendered it imperative that it should be rigorously repressed, nevertheless did not produce another violent reaction, but left the French people as resolute in their refusal to be ruled by a king as by a mob.

Of course when a great crisis actually comes, no matter how much people have been misled by names, they promptly awaken to their unimportance. To the individual who suffered under the guillotine at Paris, or in the drownings in the Loire, or to the individual who a century before was expelled from his beloved country, or tortured, or sent to the galleys, it made no difference whatever that one set of acts was performed under Robespierre and Danton and Marat in the name of liberty and reason and the rights of the people, or that the other was performed in the name of order and authority and religion by the direction of the great monarch. Tyranny and cruelty were tyranny and cruelty just as much in one case as in the other, and just as much when those guilty of them used one shibboleth as when they used another. All forms of tyranny and cruelty must alike be condemned by honest men.

We in this country have been very fortunate. Thanks to the teaching and the practice of the men whom we most revere as leaders, of the men like Washington and Lincoln, we have hitherto escaped the twin gulfs of despotism and mob rule, and we have never been in any danger from the worst forms of religious bitterness. But we should therefore be all the more careful, as we deal with our industrial and social problems, not to fall into mistakes similar to those which have brought lasting disaster on less fortunately situated peoples. We have achieved democracy in politics just because we have been able to steer a middle course between the rule of the mob and the rule of the dictator. We shall achieve industrial democracy because we shall steer a similar middle course between the extreme individualist and the Socialist, between the demagogue who attacks all wealth and who can see no wrong done anywhere unless it is perpetrated by a man of wealth, and the apologist for the plutocracy who rails

against so much as a restatement of the eighth commandment upon the ground that it will "hurt business."

Sound Ethics. First and foremost we must stand firmly on a basis of good sound ethics. We intend to do what is right for the ample and sufficient reason that it is right. If business is hurt by the stern exposure of crookedness and the result of efforts to punish the crooked man, then business must be hurt, even though good men are involved in the hurting, until it so adjusts itself that it is possible to prosecute wrongdoing without stampeding the business community into a terror-stricken defense of the wrong-doers and an angry assault upon those who have exposed them. On the other hand, we must beware, above all things, of being misled by wicked or foolish men who would condone homicide and violence, and apologize for the dynamiter and the assassin because, forsooth, they choose to take the ground that crime is no crime if the wicked man happens also to have been a shiftless and unthrifty or lazy man who has never amassed property. It is essential that we should exert the control of the government out of the hands of rich men who use it for unhealthy purposes, and should keep it out of their hands; and to this end the first requisite is to provide means adequately to deal with corporations, which are essential to modern business, but which, under the decisions of the courts, and because of the short-sightedness of the public, have become the chief factors in political and business debasement. But it would be just as bad to put the control of the government into the hands of demagogues and visionaries who seek to pander to ignorance and prejudice by penalizing thrift and business enterprise, and ruining all men of means, with, as an attendant result, the ruin of the entire community. The tyranny of politicians with a bureaucracy behind them and a mass of ignorant people supporting them would be just as insufferable as the tyranny of big corporations. The tyranny would be the same in each case, and it would make no more difference that one was called individualism, and the other collectivism, than it made in French history whether tyranny was exercised in the name of the commune or of the emperor, or of a committee of national safety, or of a king.

The sinister and adroit reactionaries, the sinister and violent radicals, are alike in this, that each works in the end for the destruction of the cause that he professes to champion. If the one is left to his own devices, he will utterly discredit the entire system of government by individual initiative; and if the other is allowed to work his will, he, in his turn, will make men so loathe interference and control by the state that any abuses connected with the untrammeled control of all business by private individuals will seem small by comparison. We cannot afford to be imprudent. We must judge each case on its merits. It is absolutely indispensable to foster the spirit of individual initiative, of self-reliance, of self-help; but this does not mean that we are to refuse to face facts and to recognize that the growth of our complex civilization necessitates an increase in the exercise of the functions of the state. It has been shown beyond power of refutation that unrestricted individualism, for instance, means the destruction of our forests and our water supply. The dogma of "individualism" cannot be permitted to interfere with the duty of a great city to see that householders, small as well as big, live in decent and healthy buildings, drink good water, and have the streets adequately lighted and kept clean. Individual initiative, the reign of individualism, may be crushed out just as effectively by the unchecked growth of private monopoly if the state does not interfere at all, as it would be crushed out under communism, or as it would disappear, together with everything else that makes life worth living, if we adopted the tenets of the extreme Socialists.

Party of Discontent. In 1896 the party of discontent met with a smashing defeat for the very reason that, together with legitimate attacks on real abuses, they combined wholly illegitimate advocacy even of the methods of dealing with these real abuses, and in addition stood for abuses of their own which, in far-reaching damage, would have cast quite into the shade the effects of the abuses against which they warred. It was essential both to the material and moral progress of the country that these forces should be beaten; and beaten they were, overwhelming. But the genuine ethical revolt against these forces was aided by a very ugly materialism, and this materialism at one time claimed the victory as exclusively its own, and advanced it as a warrant and license for the refusal to interfere with any misdeeds on the part of men of wealth. What such an attitude meant was set forth as early as 1896 by an English visitor, the journalist Mr. Stevens, a man of marked insight. Mr. Stevens did not see with entire clearness of vision into the complex American character; it would have been marvelous if a stranger of his slight experience here could so have seen; but it would be difficult to put certain important facts more clearly than he put them. Immediately after the election he wrote as follows (I condense slightly):

An Englishman's View. "In the United States legal organization of industry has been left wholly wanting. Little is done by the state. All is left to the initiative of the individual. The apparent negligence is explained partly by the Americans' horror of retarding me-

HER PHYSICIAN ADVISED

Taking Lydia E. Pinkham's Vegetable Compound

Columbus, Ohio.—"I have taken Lydia E. Pinkham's Vegetable Compound during change of life. My doctor told me it was good, and since taking it I feel so much better that I can do all my work again. I think Lydia E. Pinkham's Vegetable Compound is a fine remedy for all women's troubles, and I never forget to tell my friends what it has done for me."—Mrs. E. HANSON, 304 East Long St., Columbus, Ohio.

Another Woman Helped. Granville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women I am willing you should publish my letter."—Mrs. CHARLES BARCLAY, R.F.D., Granville, Vt.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

chemical progress, and partly by their reliance on competition. They have cast overboard the law as the safeguard of individual rights, and have put themselves under the protection of competition, and of it alone. Now a trust in its exacter acceptance is the flat negation of competition. It is certain that commercial concerns make frequent, powerful, and successful combinations to override the public interest. All such corporations are left unfettered in a way that to an Englishman appears almost a return to savagery. The defenselessness of individual liberty against the encroachment of the railway companies, tramway companies, nuisance-committing manure companies, and the like, is little less than horrible. Where regulating acts are proposed, the companies unite to oppose them; where such acts exist, they bribe corrupt officials to ignore them. When they want any act for themselves, it can always be bought for cash. (This is of course a gross exaggeration; and allusion should have been made to the violent and demagogic attacks upon corporations, which are even more common than and are quite as noxious as acts of oppression by corporations.) They maintain their own members in the legislative bodies—pocket assemblymen, pocket representatives, pocket senators. In the name of individual freedom and industrial progress they have become the tyrants of the whole community. Law-

less greed on one side, and lawless brutality on the other—the outlook frowns. On the wisdom of the rulers of the country in salving or embittering these antagonisms—still more, on the fortune of the people in either conviction that to get dollars is the one end of life—it depends whether the future of the United States is to be of eminent beneficence or unspeakable disaster. It may stretch out the light of liberty to the whole world. It may become the devil's drill-ground where the cohorts of anarchy will furnish themselves against the social Armageddon."

Mr. Stevens here clearly points out, what every one ought to recognize, that if individualism is left absolutely uncontrolled as a modern business condition, the curious result will follow that all power of individual achievement and individual effort in the average man will be crushed out just as effectively as if the state took absolute control of everything. It would be easy to name several big corporations, each one of which has within its sphere crushed out all competition, so as to make, not only its rivals, but its customers, as dependent upon it as if the government had assumed complete charge of the product. It would, in my judgment, be a very unhealthy thing for the government thus to assume complete charge; but it is even more unhealthy to permit a private monopoly thus to assume it. The simple truth is that the defenders of the theory of unregulated lawlessness in the business world are either insincere, or blind to the facts, when they speak of their system as permitting a healthy individualism and individual initiative. On the contrary, it crushes out individualism; save in a very few able and powerful men, who tend to become dictators in the business world, precisely as in the old days a Spanish-American president tended to become a dictator in the political world.

No Benefits. Moreover, where there is absolute lawlessness, absolute failure by the state to control or supervise these great corporations, the inevitable result is to favor, among these very able men of business, the man who is unscrupulous and cunning. The unscrupulous big man who gets complete control of a given forest tract or of a network of railways which alone give access to a certain region, or who, in combination with his fellows, acquires control of a certain industry, may crush out, in the great mass of citizens affected, all individual initiative quite as much as it would be crushed out by state control. The very reason why we object to state ownership, that it puts a stop to individual initiative and to the healthy development of personal responsibility, is the reason why we object to an unsupervised, unchecked monopolistic control in private hands. We urge control and supervision by the nation as an antidote to the movement for state socialism. Those who advocate total lack of regulation those who advocate lawlessness in the business world themselves give the strongest impulse to what I believe would be the deadening movement towards state socialism.

There must be law to control the big men and therefore especially the big corporations in the industrial world in the interest of our industrial democracy of today. This law must be efficient and therefore it must be administered by executive officers, and not by lawsuits in the courts. It is not done, the agitation to increase out of all measure the share of the government in this work will receive an enormous impetus. The movement for government control of the great business corporations is no more a movement against liberty than a movement to put a stop to violence is a movement against liberty. On the contrary, in each case alike it is a movement on behalf of the hard-working man of small means, just as in the other case it is a movement on behalf of the peaceable citizen who does not wish a "liberty" which puts him at the mercy of any rowdy who is stronger than he is. The huge irresponsible corporation which demands liberty from the supervision of government agents stands on the same ground as the less dangerous criminal of the streets who wishes liberty from police interference.

Materialism. But there is an even more important lesson for us Americans to learn, and this also is touched upon in what I have quoted above. It is not true, as Mr. Stevens says, that Americans feel that the one end of life is to get dollars; but the statement contains a very unpleasant element of truth. The hard materialism of greed is just as objectionable as the hard materialism of brutality, and the greed of the "haves" is just as objectionable as the greed of the "have-nots;" and no more so. The envious and sinister creature who declaims against a great corporation because he really desires himself to enjoy what in hard, selfish, brutal fashion the head of that corporation enjoys, offers a spectacle which is both sad and repellent. The brutal arrogance and grasping greed of the one man is in reality the same thing as the bitter envy and hatred and grasping greed of the other. That kind of "have" and that kind of "have-not" stand on the same eminence of infamy. It is as important for the one as for the other to learn the lesson of the true relations of life. Of course, the first duty of any man is to pay his own way, to be able to earn his own livelihood, to support himself and his wife and his children and those dependent upon him. He must be able to give those for whom

FREE SAMPLES of Dr. Caldwell's Syrup Pepsin The Nation's Safeguard of Health FOR EVERYBODY

For fifteen years I suffered from stomach trouble and constipation, until it seemed as if death were the only relief. The most prevalent symptoms were bloating and pressure against the heart and the most distressing pains across the stomach. I had Dr. Caldwell's Syrup Pepsin recommended to me and commenced using same. I possibly used a dozen bottles, and I can honestly say I believe it saved my life. I don't think anyone suffered more than I did, and got well, for I am not only relieved, but cured, and can eat anything without any pain or distress. —B. F. Thompson, Foreman Shenandoah, Iowa, Brick and Tile Works.

We have used the sample bottle of Syrup Pepsin and one regular 50-cent bottle and are now using a \$1.00 bottle. I feel greatly benefited by its use and expect to continue using it until I am 65 years old. I am 45 years old and was afflicted with indigestion, liver trouble and general prostration, but am feeling better since I began using your medicine than I have for years before. —Mrs. B. F. Thompson, Jackson, Kentucky.

I received your sample bottle of Syrup Pepsin and after taking it I bought several bottles from my druggist. I find it a good remedy for indigestion, and also constipation. I don't regret the money I paid for it. —Ida A. Fortune, Grand Junction, Tenn.

About four years ago I was taken ill with indigestion and stomach trouble. After trying several remedies I was induced to try Dr. Caldwell's Syrup Pepsin. After taking part of a bottle I was entirely relieved, and have kept a bottle in my house since. I find it the most stomach tonic I have ever used and gladly recommend it to all who have stomach trouble. —G. Fowler, Chardon, Ohio.

I used your Syrup Pepsin last summer for indigestion, constipation and biliousness, and I find it the best medicine I have ever used. —Wash B. Hatfield, Salina, Mo.

Medical Advice. If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the Doctor, and he will advise you free of charge. There is no charge for this service. For advice or free samples, Dr. W. B. CALDWELL, 260 Caldwell Building, Medford, Ill.

It is his duty to care for and clothing, shelter, medicine, an education, a legitimate chance for reasonable and healthy amusements, and the opportunity to acquire the knowledge and power which will fit them in their turn to do good work in the world. When once a man has reached this point, which of course will vary greatly under different conditions, then he has reached the point where other things become immensely more important than adding to his wealth. It is emphatically right, indeed I am tempted to say it is emphatically the first duty of each American, "to get dollars," as Mr. Stevens contemptuously phrased it; for this is only another way of saying that it is his first duty to earn his own living. But it is not his only duty, by a great deal; and after the 'living has been earned, getting dollars should come far behind many other duties.

Yet another thing. No movement ever has done or ever will do good in this country where assault is made not upon evil wherever found, but simply upon evil as it happens to be found in a particular class. The big newspaper, owned or controlled in Wall street, which is everlastingly preaching about the iniquity of laboring men, which is quite willing to bound politicians for their misdeeds, but which with raving fury defends all the malefactors of great wealth, stands on an exact level with, and neither above nor below, that other newspaper whose whole attack is upon men of wealth, which declines to condemn, or else condemns in apologetic, perfunctory, and wholly inefficient manner, outrages committed by labor. This latter is the kind of paper which by torrents of foul abuse seeks to stir up a bitter class hatred against every man of means simply because he is a man of means, against every man who by industry and ability has honorably won his wealth, and who honorably spends it, or a man whose wealth represents robbery and whose life represents either profligacy, or at best an insane, useless, and tasteless extravagance. This country cannot afford to let its conscience grow warped and twisted, as it must grow if it takes either one of these two positions. We must draw the line, not on wealth nor on poverty, but on conduct. We must stand for the good citizen because he is a good citizen, whether he be rich or whether he be poor, and we must mercilessly attack the man who does evil, wholly without regard to whether the evil is done in high or low places, whether it takes the form of homicidal violence among members of a federation of miners, or of unscrupulous craft and greed in the head of some great Wall street corporation.

A RESOLUTION REGULATING
THE ACCEPTANCE OF THE DE-
DICATION OF STREETS, AL-
LEYS, AND OTHER PUBLIC
WAYS, BY THE CITY OF PADU-
CAH, KENTUCKY.

Whereas, the City of Paducah,
Kentucky, has heretofore experi-
enced great annoyance, and suffered
great expense, by reason of the ac-
ceptance of the dedication of streets,
alleys and other publicways, in the
City of Paducah, running through
and across certain territory platted
before the dedication of such streets
and alleys; and,

Whereas, in a great many in-
stances the streets, alleys and pub-
licways contained in said platted ter-
ritory in the City of Paducah, Ken-
tucky, do not conform to the streets,
alleys and other publicways con-
tiguous to and abutting said platted ter-
ritory; and,

Whereas, this condition of affairs
makes such streets, alleys and other
publicways of the City of Paducah,
both unsightly and inconvenient for
the use of the public; now therefore,

BE IT RESOLVED, BY THE GEN-
ERAL COUNCIL OF THE CITY OF
PADUCAH, KENTUCKY: That
from and after the passage, approval
and publication of this resolution,
the City will not accept the dedica-
tion of any street, alley or other
publicway in the City of Paducah,
Kentucky, which has been platted
therebefore, unless said street, alley
or other publicway is so platted
under the direction, supervision, and
with the approval of the Board of
Public Works and the City Engineer,
of the City of Paducah; or unless
said dedicated street, alley or other
publicway conforms in all respects
to the streets, alleys and publicways
of the contiguous or adjacent terri-
tory of the City of Paducah; and,

BE IT FURTHER RESOLVED:
That the intention and meaning of
this resolution shall be in requiring
said dedicated street, alley or other
publicway to conform to the streets,
alleys or other publicways of con-
tiguous or adjacent territory of the
City of Paducah, Kentucky; that
said dedicated street shall be so
platted or laid out as to connect with
other streets, alleys or other pub-
licways of the City of Paducah, al-
ready constructed; or to connect
with the territory over which said
streets, alleys or other publicways
of the City would be constructed, if
extended.

KLEIN CASE

TESTIMONY TAKEN IN NATIONAL
GUARDSMAN'S TRIAL.

Illinois Soldier Who Stabbed Youth
to Death With Bayonet During
Riots.

Paxton, Ill., June 18.—The in-
troduction of testimony began in the
trial of Joseph B. Klein, of Chicago,
private in Company A, First regiment
Illinois National Guard, for the murder
of Earl Nebo, 16 years old, who
was stabbed to death at Kankakee
on August 15, 1908, with a bayonet,
while trying to board the special train
in which the troops were going from
Chicago to Springfield to quell the
race riots.

F. R. Mitchell, of Indianapolis, an
employee of the Illinois Central, tes-
tified that he was a witness to the
stabbing of Nebo. He said he no-
ticed Nebo on the third step of one
of the cars. He saw a soldier come
out of the car door, holding the bay-
onet in his hand. The witness said
Nebo started to get off the car and
was hanging to the hand rail when
the soldier reached down and stabbed
him with the bayonet. Nebo jumped
to the ground and walked back to a
flag shanty. The jury, as completed
after three days' work, is composed
of farmers.

NATURE'S HAIR RESTORER

WYETH'S
SAGE AND SULPHUR
HAIR RESTORER

One Great Reason Why
This Great Hair Beautifier and Color Restorer
Produces Such Remarkable Results
Sulphur is a Natural Element of the Hair.

When there is not a sufficient amount of sulphur in the hair, it
loses its life, color and strength, turns gray, and falls out. There
are many forms of sulphur, but only one kind that is suitable for
treatment of the hair and scalp; and that is the kind used in pre-
paring WYETH'S SAGE AND SULPHUR HAIR RESTORER.

We Have the Secret, and We Give You the Benefit
Of It At An Exceedingly Low Price.
IT IS NOT A DYE

For two or three years my hair had been falling out and
getting quite thin until the top of my head was entirely bald.
About four months ago I commenced using Sage and Sul-
phur. The first bottle seemed to do some good and I kept
using it regularly, until now I have used four bottles. The
whole top of my head is now fairly covered with hair, and
it keeps coming in thicker. I shall keep on using it a while
longer, as I notice a constant improvement.

CHLOROFORM

WAS USED IN KILLING MRS.
NORA CLEMINSON.

Official Report to Coroner Concern-
ing Case of Chicago Doctor's
Wife.

Chicago, June 18.—Chloroform,
administered externally, caused the
death of Mrs. Nora Jane Cleminson,
wife of Dr. Haldane Cleminson, on
May 31, according to the official re-
port made to Coroner Hoffman by
the physicians who made a chemical
analysis of the woman's body.

Cleminson, when accused of his
wife's death, claimed that she must
have poisoned herself accidentally.
No disposition of his case has been
made. The coroner's inquest will be
reopened.

Coroner Hoffman said it would be
extremely difficult for a person to
commit suicide by the external appli-
cation of the poison, as sleep would
come before the second application
could be made. With the cause of
death determined definitely the mys-
tery is expected to be cleared soon.

FIGHT FOR FREE PRINT PAPER ON

SENATOR BROWN GOES AMONG
ENEMIES OF PROPOSITION

Tillman Wanted to Know Why
Newspapers in Favor of Protective Tariff

WANT MATERIALS ON FREE LIST

Washington, June 18.—The battle to place wood pulp and print paper upon the free list was opened up in the senate under leadership of Brown, of Nebraska. Going over to that portion of the chamber in which Aldrich, Hale, Frye, Lodge, Gallinger, Smoot and other leaguers have their seats, the Nebraskan stood in the midst of the opposing force and with good nature "banded" the thrush which came to him from all quarters as he delivered a telling speech in behalf of the cause he had espoused. Showing familiarity with all available information on the wood pulp and paper schedules, Brown frequently quoted from various authorities to substantiate his contention that wood pulp and print paper are both produced in the United States with cheaper labor and cheaper materials, resulting in a cheaper product, than can be obtained in Canada. Citing rates of wages in this country and Canada, he undertook to show that the United States had an advantage in this respect.

There was a large attendance of Democrats who, for the most part, remained silent throughout the session. Tillman was an exception. With characteristic brusqueness he asked how it was that the newspapers advocating a protective tariff desired free trade in the material they use. Then looking over the senate with a frown and stamping his foot upon the carpet, the South Carolinian declared "They are humbugs."

Balley was also heard briefly. In a facetious manner, he suggested that an amendment should be drawn giving the benefit of free paper to the free traders papers and levying a duty on paper used by the protective tariff journals.

Brown still held the floor when the senate adjourned earlier than usual to permit a Democrat caucus. He will resume consideration of his amendment for free paper tomorrow.

The senate today adopted the window glass schedule placing a lower duty on such than is provided either by the Dingley law or by the house bill.

Because of the intense competition by German manufacturers the duty on illustrated post cards was increased 325 per cent above the Dingley law. The schedules relating to lithographic paper, calendars, cigar bands, and such products, were adopted.

Alone in Saw Mill at Midnight, unimpaired of dampness, drafts, storms or cold, W. J. Atkins worked as Night Watchman, at Banner Springs, Tenn. Such exposure gave him a severe cold that settled on his lungs. At last he had to give up work. He tried many remedies but all failed till he used Dr. King's New Discovery. "After using one bottle," he writes, "I went back to work as well as ever." Severe Colds, stubborn Coughs, Inflamed throats and sore lungs, Hemorrhages, Croup and Whooping Cough get quick relief and prompt cure from this glorious medicine. 50c and \$1.00. Trial bottles free, guaranteed by all druggists.

M'GRAW AND RAYMOND CLASH.
Manager Administers Chastisement to Player While on the Train.

Pittsburgh, June 18.—John McGraw, manager of the New York Nationals, and "Bugs" Raymond, the eccentric pitcher of the same baseball club, had a rough and tumble argument while en route from Cincinnati to this city early today. It is said McGraw reprimanded Raymond for the latter's conduct while in Cincinnati.

McGraw today said: "Raymond got a little 'strong' on the train and needed correction. I didn't want to fine him so I just administered a little chastisement."

Raymond, who carries a split lip as a result of the encounter, says the mix-up came after McGraw had jumped on him without provocation. The two men appeared on the ball grounds this afternoon apparently reconciled.

Pay your city taxes now and avoid the penalty after July 1.
